

Study Questions #1 Due: Sept. 11, 2008

Reading Questions — Chapters 2 K&K

1. What are some types of evidence K&K propose, towards the beginning of ch. 2, in favor of a significant distinction between idiosyncratic and systematic properties of a pronunciation (not the individual examples, but the types of evidence)?
2. On page 38, K&K discuss two ways a regularity in Papago can be described with the concepts “list” and “rule”. Briefly summarize the reasons K&K prefer the first alternative.
