

Study Questions #4 Due: Oct. 9, 2008

Kenstowicz 1994, Chapter 3, pages 89-107

1. Why does Kenstowicz reject a deletion analysis for Serbo-Croatian?
2. Consider Kenstowicz's analysis of Kiamu (pages 101-102). Are you convinced of the need for intermediate representations with this example? Why or why not?
3. What are two interesting things you learned from this reading?

K&K 1979, Chapter 4, pages 77-99

1. K&K give an extended analysis of a fragment of one language partly to give the reader more practice in thinking about the concepts and notation introduced so far, but also to introduce some new ideas. List three interesting aspects of the Yokuts analysis.
